

# Parent Group of Students in Special Education –SW Dallas (SSEP)

---

**Our mission:** As a community it is very important to support each other, to be active in our children's education, we must establish a support base; **home-school, school-home.**

Our **Group of Parents with Students in the Special Education Program-of Southwest Dallas (SSEP)** our mission is to set up those support infrastructures, to improve the lines of communication and the educational needs that our children require, to minimize those flaws, or gaps that our schools may have.

Yet to diminish that, we must unit to establish those channels of communication between parents/school and to give solutions to favorably better classrooms and the **Special Education Program (SPED).**

**Our vision:** As parents to work together to better our classrooms, our programs, and our services for our children. Over all to better improve the quality of teaching, by creating awareness campaigns to favor them. Instituting educational environments free of discrimination, segregation, intimidation, harassment (a.k.a. *'Bullying'*) amongst others.

By working as a team with our schools we will be part of the change to create more *safe* and *inclusive* schools for all students.

Erika Cavazos

Founder, Advocate, Parent of a student with ASD.

Liliana Sanchez

Analyst and Activist in Legal Rights to People with Disabilities, Independent Mentor for Hispanic Parents with Children with Disabilities, Analyst in Government International Affair of Disabilities Issues.
